

REMARKS

The Office Action dated May 16, 2006 has been fully considered by the Applicant.

The Examiner has therein set forth a restriction requirement dividing the claims of the pending application into two groups: Claims 1 through 13 (Drawn to an apparatus) or Claims 14 through 21 (Drawn to a method).

The restriction requirement is respectfully traversed, It is believed that the claims could easily be considered at this time. Notwithstanding the foregoing, Applicants elect Claims 1 through 13 Drawn to a spacerless or geo composite double bottom apparatus.

Applicants election is without prejudice to their right to file divisional applications as to the remaining claims

It is believed that the foregoing is fully responsive to the outstanding Office Action. It is submitted that the application is now in condition for allowance and such action is earnestly solicited.

Respectfully submitted,
